

# Precision Caliper

**NEW** CALIPERS  
TWIN-CAL IP67 150/200/300 MM

VALID UNTIL : 30.06.2013

PRICES EXCLUDE VAT

VERSION 23 - EN - No Prices

TLC connectivity concept

The TWIN-CAL calipers are manufactured with a built-in output connectivity feature. Just connect the "plug and play" TLC (TESA-LINK Connector) to the caliper and the other cable end to a computer with DATA-Direct. All measuring data can be easily retrieved and analysed for an optimal SPC monitoring.

- Highest IP67 protection against dust and liquids, also with cable connection
- Biggest LCD screen ever with 11 mm digits
- More than 12 000 hours autonomy (3 years)
- ABS measuring mode
- Unique TWIN & LINK connectivity concept, evolutive output capacity with all TWIN-CAL
- «Soft touch» feature for a better grip and maximum sensitivity
- Stainless steel plate cover with PVD deposit ensuring an optimal protection of the housing
