BENCHGUARD

PROTECTING YOUR WORK SURFACES AGAINST CONTAMINATION

Eco-Friendly Bamboo-based

Absorbent Wipes

INGREDIENTS: Aqua, Ethyl Alcohol, Propane Glycol, Butyl Ether, Citrus Limon Peel Oil, DMDM Hydantoin, Sodium Bicarbonate, Cetylpyridinium Chloride Monohydrate, Disodium Cocoamphodiacetate, Iodopropynyl Butylcarbamate, Aloe Barbadensis Leaf Extract.

Once opened use within 12 months.

Features & Benefits

- Kills 99.9% of bacteria
- Made from 80% eco-friendly bamboo fibres
- Fully biodegradable and sustainable
- Ideal for use in isolators and change stations
- Outperforms commonly used polypropylene (plastic) wet wipes
- Ecotax 100 certified with non-harmful substances
- Approved with zero recorded irritation on all skin types
- 80 wet wipes in re-sealable tubs, supplied 8 tubs per box

Sustainability

Bamboo canes grow like grass at rates of up to two feet a day. Bamboo is nature's answer to our needs for everyday wipes in an environmentally sustainable form. If organic wipes made from bamboo become popular, it would lead to more bamboo plantations, which would result in less deforestation and more oxygen for mankind. Because of these wipes' strength and durability, it makes them ideal for spillages, chemicals and more! Bamboo stock used is grown pesticide-free and certified organic by USDA.
